“Jaimee Harris’ *Red Rescue* Is The Debut Of The Year And The Arrival Of A Major New Figure in Americana.” -- *Americana Highways*

“*Red Rescue* may be a debut record, but this is the work of an artist of considerable maturity and sophistication. She has already produced a work of art that far surpasses what most musicians ever will. This could very well mark the arrival of one of the major figures in the next generation of Americana artists.” -- *Americana Highways*

“...there’s no doubting *Red Rescue* heralds the arrival of a major new Austin singer-songwriter.” -- **Peter Blackstock**, *Austin American Statesman*

“My number one from AmericanaFest is Jaimee Harris. I’m obsessed with [Depressive State] right now.” -- **Ann Powers**, *NPR*

“Rarely is a young artist tasked with so much to prove and live up to on their *debut*. Then again, rarer still are debut albums like this one, which sounds a lot more like a mid-career breakthrough on the level of *Car Wheels on a Gravel Road* than a tentative first step. Yes, it really is *that* damn good.” -- *Lone Star Music Magazine*

“As demonstrated by the exceptional, day-after sobriety of “Snow White Knuckles,” Jaimee Harris excels in uncompromising self-examination, raw yet articulate in her promising first offering.” -- *Austin Chronicle*
